

Electricity Facts Label (EFL)
SFE Energy Texas, Inc. ("SFE") Energy Fixed Price ("EFP")

	July 01, 2026	\$0.16
Customer's TDSP	Date	EFP (\$/kWh) Commodity Charge

Electricity Price	Average Monthly Use		
	1,500 kWh	2,500 kWh	3,500 kWh
Non-Demand Meters	\$0.16 + TDU Delivery Charges	\$0.16 + TDU Delivery Charges	\$0.16 + TDU Delivery Charges
Demand Meters			

The total average price you will pay under this contract is the Energy Fixed Price (EFP) + current Transmission and Distribution Utility ("TDU") delivery charges + any applicable recurring monthly fees. This price disclosure is based on average monthly kWh usage shown using a total electricity price of 16¢/kWh. The rates above are for example only. The Applicant's Fixed Price is the rate agreed to on your Commercial Supply Agreement. Your actual average price per kWh which will vary based on your actual usage and demand. The Applicant agrees to pay all pass-through fees charged by the TDU. Current non-residential TDU charges are available at: <https://www.sfeenergy.com/tducharges/>

These pass-through fees include TDU delivery charges and may include service connection, disconnection or reconnection fees, meter test fees, or special meter read fees, third party charges, changes to the ERCOT or Texas Regional Entity administrative fees charged to loads or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs on a REP that are beyond the REP's control. The Applicant shall pay lawful taxes and surcharges that may apply to the pass-through fees, whether direct or indirect, relating to the sale, purchase or delivery of electricity. The price the Applicant will pay may include state or local municipal taxes that SFE will pass through to the Applicant. If Location(s) are exempt from state/local taxes, Applicant shall provide SFE with proof of such status at the time of its execution of the Agreement (please refer to Taxes section). These pass-through fees will appear as separate line items on the Applicant's invoice. Consult your TDU's tariff for the applicability and amount of such charges. For demand metered accounts, a 30% load factor is assumed. The average prices per kWh above are based on the specified monthly.

Other Key Terms and questions	See Commercial Supply Agreement Terms of Service statement for a full listing of fees, deposit policy, and other terms.
Type of Product	Fixed or Fixed with Pass-Through Components
Contract Term	Minimum 3 months - See Commercial Supply Agreement and Terms of Service statement for a full listing of your length of term.
Do I have a termination fee or any fees associated with terminating service?	YES, If the Applicant cancels the Agreement before the end of the Agreement, early cancellation fees of the higher of either (i) \$500 or (ii) \$0.01 kWh of the estimated usage for the remainder of the term to be calculated. See Canceling Your Agreement section of the Commercial Supply Agreement Terms of Service for further details.
Can my price change during the contract period?	YES
If my price can change how will it change, and by how much?	The price applied in the first billing cycle may be different from the price in this EFL if there are changes in TDSP charges; changes to the Electric Reliability Council of Texas or Texas Regional Entity administrative fees charged to loads or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs that are outside our control.
What other fees may I be charged?	Fees not included in above price can be found in Itemization Of Non-Recurring Charges For Service section of the Terms of Service.
